***Claim Rejections - 35 USC § 112 1<sup>st</sup> Paragraph***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-12 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

In claims 1, 4, and 6, reciting "the drive is capable of being powered by both manual power and motor power," is new matter which was not supported in the original specification and claims. Starting from 11/28/05 to present, applicant's representative has amended the claims to recite that the drive is capable of being powered by both manual power and motor power. Applicant's representative argued this particular subject matter throughout the prosecution to overcome the prior art of record. However, the subject matter amended by the applicant's representative was not described in the original specification and has been overlooked by the Examiner.

***Allowable Subject Matter***

Claims 13-20 are allowed from the previous office action.

The indicated allowability of claims 1-12 is withdrawn in view of the original specification.

### ***Response to Arguments***

Claims 21-22 have been canceled.

Applicant's arguments with respect to claims 1-12 have been considered but are moot in view of the new ground(s) of rejection as set forth above.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
